<b>Title :</b> Paintball Risk Assessment	<b>Date of Assessment :</b> 15/08/2017	<b>Risk Assessor :</b> Paul Good
<b>Risk Assessment Reference :</b> RA01	<b>People involved in making this assessment :</b> Alicia Cox	
<b>Task/ Process :</b> Paintball Area and Segway Adventure.	<b>People at Risk :</b> Employees, Contractors, Members of the Public, Volunteers	

<b>Hazard : Slips and trips</b> Serious injury could occur due to operatives falling on debris, equipment, uneven surfaces, grease, oil , any other substance.
<b>Control Measures:</b>
1. Operatives to wear sensible footwear at all times whilst at work.
2. All areas are cleared of possible trip hazards with daily checks completed by staff prior to use and any debris removed.
3. Employees regularly check areas for possible cases of trips and slips within the paintball and Segway areas.
4. Staff and clients are advised to wear sensible footwear at all times whilst at work. (boots, trainers)
5. Flooring areas within the path through and around each game zone, such as bridges, displays, safe zone area are cleared of debris and trip hazards as part of the daily checks carried out by staff with 6 monthly proactive maintenance.
6. External pathways around the area are cleared of branches, twigs, large stones any objects through walking areas as far as reasonably practicable during daily inspections.
7. Clients attending for a paint ball game will be informed of the ground conditions if there has been heavy rain fall, ice.

<b>Hazard : Equipment Storage</b> Falling equipment or equipment damaged by incorrect storage.
<b>Control Measures:</b>
1. All equipment including the guns are checked before and after games. Any defective guns are removed immediately from use and locked in a separate box until the equipment has been repaired or disposed of.
2. All equipment stored in suitable shelving and box systems to mitigate any damage, they are also stored at body height and not above.
3. When equipment is removed from storage for use during the activities, instructors move them to a position just outside of the game zone which has rack system for the paintball guns to be suitably placed on.
4. Paint ball guns, body shield, face masks etc. are stored in locked container which is only accessible to the competent instructors.

<b>Hazard : Fire Electrical Fires</b>
<b>Control Measures:</b>
1. Portable appliances owned by Dragon Raiders Ltd are tested in line with current requirements.
2. Fixed Electrical testing is conducted within the recommended timescales (Usually every 5 Years) for any internal building areas.

**Hazard : Substances COSHH**

**Control Measures:**

1. Any substances are assessed, safely stored or removed from site after use or kept in a locked and secure location.
2. Products used are domestic cleaning products in the main and do not require a risk assessment. If a product such as pyrotechnics which are used, stored for the paintball games, a relevant assessment will be undertaken.
3. Exposure to hazardous substances kept to a minimum as per the quantities that are stored on site.
