2. First aid kits available on site and these are checked periodically and replenished as necessary.

Hazard : Segway Adventure and use of equipment Falls from equipment Possible cuts bruises, abrasions or broken bones

Control Measures:

1. All persons are required to complete a 20 minute training and instruction for the operation of Segway equipment.
2. The adventure and the pace of the machines are led by a competent qualified instructor.
3. The Segway's are restricted to approx. 5mph for excessive speed cannot be reached.
4. All persons taking part are issued the relevant P.P.E. for the use of this equipment which is monitored by The instructor and Dragon Raiders Staff.
5. No alcohol can be consumed prior to operating the Segway equipment.
6. The competent instructors will observe and work closely with any clients who need additional training on the segways.
7. Training session forms are completed during the 20 minute training and instruction and any areas the client does not feel comfortable with additional training and assistance will be given before being signed.
8. 8-10 minute Safety talk provided when clients first attend site.
9. Segway's are visually checked and inspected daily before use by competent staff members, any defective issues identified will be raised and the Segway taken out of any use until it has been repaired or replaced.

- | |
|---|
| 10. Staff take clients through basic four stages of training on the Segway's. |
| 11. A strict aged limit is imposed of the Segway's over 10 - 16 must be accompanied by a responsible adult. No one under the age of 10 can operate the Segway under any conditions. |
| 12. A one metre rule in single file is in place at all times when Segway's are in operation to mitigate collisions. |
| 13. Helmets must be worn at all times by both instructors and clients when operating the Segway. |
| 14. Segway maintenance in place in line with manufactures instructions. |
